Charles A. Lindbergh House
Little Falls, Minnesota

Charles Lindbergh’s boyhood home was constructed in 1906 along the banks of the Mississippi River on the family’s 110-acre farm. Surviving hordes of souvenir hunters following his trans-Atlantic flight in 1927, this frame cottage and the farm were given to the State of Minnesota by his family. The Lindbergh home was suffering from moisture infiltration and in need of general exterior repairs to keep it in weather-tight condition.

The Lindbergh House is a National Historic Landmark.

Services
